

K550

CLOSED-BACK REFERENCE-CLASS HEADPHONES

AKG[®]
by HARMAN

OPEN SOUND HAS NEVER BEEN SUCH A PRIVATE EXPERIENCE.

With the K550s, AKG[®] engineers have struck a masterful balance between the noise-isolating qualities of closed-back headphones and the spacious, dimensional sound of an open-back design – creating reference-class headphones ideal for private listening both at home and on the go. 50mm drivers, the largest in our product line, deliver great AKG sound from your hi-fi system or virtually any portable device. The large ear cups and new headband design ensure an amazingly comfortable fit, and the 2D-Axis mechanism folds flat to stow or go.

KEY SPECIFICATIONS

System:	Dynamic
Design:	Closed-back
Color:	Matte black with black metal accents
Frequency range:	12Hz to 28kHz
Sensitivity:	114dB SPL/V
Input impedance:	32 ohms
